Hi Karyn and Warren,

I hope your summer has gone well. It doesn't seem possible that we will be starting it all up again.

The reason for my writing is that I, among others are developing CSL projects as a Task Force for a core group of High School students.

My project in particular pairs high school students with third graders. The project I feel, could be very exciting and valuable to the Lunenburg school community and within the surrounding towns as well.

It's focus is on world hunger. The students will adopt a child from an impoverished country, correspond and then raise money for that area for them to buy needed materials to help them with this overwhelming problem. You come in to rally support among high school students to help us organize a "Empty Bowl" luncheon where soup bowls designed and made by the school community would be purchased and sold.

The bowls would be on display at the luncheon location and then filled with soup to have then. I would love to talk with you both to enlist your help, ideas and thoughts. Karen Martin has grant money to help support these projects. I know it is just one more thing but I feel this is very worthwhile and could be a very exciting program to help make a small difference. Thanks for your time and I will be in touch.

Sincerely,

Susan Diamantopoulos
