PROJECT INFORMATION

Project Title: Historia Antiqua Presentation

Amount Requested \$ 700 (we are still negotiating the exact price)

Project Start/End Dates: Spring 2010

1. Project Description: Summarize the proposed project in the space provided. Describe who is the target audience; what will happen; when and where it will occur; and how the project will be executed. NOTE: You may provide additional narrative on a separate sheet of paper, but you *must* summarize the project here. Your answer in the space below may not exceed 750 characters.

This is a presentation on the Roman Army It would be presented for all 7 Latin classes in the school and open to any other classes (History, etc.) who are interested in attending. It is an interdisciplinary presentation. Historia Antiqua is a business set up by retired Latin & History teachers who bring numerous props, costumes, etc. to the presentation. The goal of the presentation is to provide students with special opportunities to understand various accomplishments of the ancient world and realize how these ancient societies affect our lives today. The presentation would be offered several times throughout the day either in the Library or Auditorium to allow multiple classes to attend.

2. Describe the planning process for this project. What individuals and organizations have been involved as partners and/or advisors? How would partial funding impact this project? Your answer in the space below may not exceed 500 characters.

We have already contacted the individuals who run Historia Antiqua and we are currently working with them on a program and a price. They have presented at LHS in the past and are working to customize a program for us. This project would only be able to occur with full funding since there isn't any money in our current budget for this program.

3. Explain how this project will reach and benefit the students of your school. How will you know the project is successful? Your answer in the space below may not exceed 500 characters.

This presentation brings Roman History to life. It gets the students excited about what they are learning. They are able to see scale models of Roman war machines and some of the students will be given the opportunity to wear a full-size suit of Roman armor. Please visit the website <http://www.historiaantiqua.com/> to see more detail about the presenters.
