PROJECT INFORMATION

Project Title: Listening Center Cd Players (and batteries)

Amount Requested \$ 76.00

Project Start/End Dates: Ongoing

1. Project Description: Summarize the proposed project in the space provided. Describe who is the target audience; what will happen; when and where it will occur; and how the project will be executed. NOTE: You may provide additional narrative on a separate sheet of paper, but you *must* summarize the project here. Your answer in the space below may not exceed 750 characters.

The project is to further develop the listening center in my classroom. As a center, children are allowed to listen to a story of their choice. They then write a response to that story which includes character identification, setting, and more story elements.

2. Describe the planning process for this project. What individuals and organizations have been involved as partners and/or advisors? How would partial funding impact this project? Your answer in the space below may not exceed 500 characters.

Partial funding of this project would allow me to purchase some of the equipment needed to continue this center in the classroom.

3. Explain how this project will reach and benefit the students of your school. How will you know the project is successful? Your answer in the space below may not exceed 500 characters.

Listening to literacy has many benefits. Besides enjoyment, when a child listens to a story it helps them see how the words on the page can come alive in a fluid, expressive way. It helps them focus on the sounds of words read without interruption and provides a model of fluent reading. Audio books also give them an important introduction to listening — a skill that they must master.

Besides this, listening to a story improves a child's vocabulary, can increase their comprehension, and help them further develop a joy of reading.
