- Please type into the form, print, sign and mail/email it to the Lunenburg PTO.

APPLICANT INFORMATION

Applicant Name : Kindergarten Team

Position: Kindergarten Teachers

School: Lunenburg Primary School

Contact Phone Number: 978-582-4122 ex.1130

PROJECT INFORMATION

Project Title: **Developing Math Centers for Kindergarten**

Materials Requested for this Project:

Balance Scales: 19" scales : Set of 10	\$89.95
Wooden Cubes: 5 sets @ 10.70 each	\$53.50
Color Tiles: 6 sets @ 12.95 each	\$77.70
Teddy Bear Counters: 4 sets @ 11.75 each	\$47.00

Amount Requested **\$292.20 (includes shipping 9%)**

Project Start/End Dates: Development of centers is ongoing.

1. Project Description: Summarize the proposed project in the space provided. Describe who is the target audience; what will happen; when and where it will occur; and how the project will be executed. NOTE: You may provide additional narrative on a separate sheet of paper, but you *must* summarize the project here. Your answer in the space below may not exceed 750 characters.

These materials will be used for small and whole group work in the kindergarten classes. We are implementing the new common core standards while developing math centers which can be differentiated to meet a range of needs in our student population. We will be supporting kindergarten students in small groups to develop a greater understanding of number concepts. We have been working on development of these centers during professional development days and common planning time, we will continue to develop new centers as we working with the common core and Kathy Richardson's book Developing Number Concepts : Counting, Comparing and Pattern.

2. Describe the planning process for this project. What individuals and organizations have been involved as partners and/or advisors? How would partial funding impact this project? Your answer in the space below may not exceed 500 characters.

The kindergarten teachers are working together along with Response to Intervention staff and Special Services staff, to plan new math centers which reflect the common core objectives of number sense, graphing, number operations and algebraic thinking. Through flexible grouping these materials will be used to support Response to Intervention as well as differentiate our instruction for higher level learners.

3. Explain how this project will reach and benefit the students of your school. How will you know the project is successful? Your answer in the space below may not exceed 500 characters.

These materials will be used by all of the kindergarten students in a variety of centers and activities through the school year and for many years to come. Proficiency on the Kindergarten math assessments and successful navigation of kindergarten and first grade math curriculum will be our measures of success for our students.
